- E. SESSION SUMMARY:

At first, I could see slow moving objects close to ground. It looked as though they were crawling. I felt that I was in a closed circular area and it was dark. Then I felt that I was looking at liquid (water?) that was moving upward to form a peak or a point. I felt that I was outside watching the liquid material move upward. I felt a circular area surrounding the liquid material that was light brown or gold in color that was man made. There were brown tubular objects that the liquid material came out of but they were hidden or down under and one could not quite see them. I then sensed fast motion. There were vehicles that moved at a very fast rate. Purple was predominant at the site. Blue and red were also associated at the site. *colors*

TASKING SHEET

SOURCE NO: 079

DATE: 21 July 1992

SUSPENSE: 21 July 1992

1530 hours

1. PROJECT NUMBER: 92-76-B

2. METHOD/TECHNIQUE: Method of Choice.

3. BACKGROUND: Two witting DIA travelers acted as beacons on Sunday, 19 July 1992. Copies of photographs of the beacon persons were previously furnished for your use/information.

4. ESSENTIAL

ELEMENTS OF INFORMATION:

---Describe the key features of the single selected target visited and observed by the beacon persons on Sunday, 19 July 1992.

----Describe the immediate surroundings of the beacon persons while they are on target.

---Submit sketches in support of your findings.

5. COMMENTS: Optional Coordinates: 591682/733781.

PROJECT: 92-76-B

DATE OF BEACON ACTIVITY ON TARGET: 19 JUL 92

DATE OF SESSIONS: 21 JUL 92

SOURCE 025:

----The target is a modern structure characterized by the presence of long windows and sloping slides.

----The target is of cultural and historical significance.

----The target is somehow associated with academia/an institution of higher learning.

SOURCE 049:

----The target is a structure that appears partially buried and is associated with other mobile structures located nearby.

----The mobile structure is characterized by a top central panel that opens and allows two spiraling forms of energy activities to take place. These two forms of energy have the ability to intersect.

SOURCE 079:

----The target is comprised of two slow moving objects located in a closed circular area.

----Liquid (water) is present. There is the presence of brown tubular objects and the discernible activity of fast motion.

----Vehicles are or could be there.

GENERAL SUMMARY:

The target appears to be a structure of structures that could be mobile in nature. LACK OF FURTHER CORRELATION AMONG THE SOURCES REQUIRES THAT EACH SUMMARY BE READ INDEPENDENTLY TO DETERMINE ITS PERTINENCY TO THE TARGET.
