E. SESSION SUMMARY:

There are two individuals who are constantly talking to the point of anger. The emotions are extreme and confrontational. There are rib-like features associated with a downslope and an overhang. Exposed sandstone occurs.

There is an object that is reminiscent of an extended bird's wing. Another object has a flat, curved surface and is layered. There is a "globular" movement and bright greens, reds, blues and yellows. There is a dark green, "L" shaped feature that is bumpy and is reminiscent of a hedge or shrub. A specific locale contains a number of chairs in disarray.

A curved wall-like feature composed of stone or cement sits near a ledge or drop off. There are ocean waves in the background. There is a feeling that it had recently been stormy in this location. The surroundings feel lush; almost a rain forest feeling. There is a cliff face with a city-like setting below and in the background.

There are fin-like features present and several red lights throughout one section of the scene.
