E. SESSION SUMMARY:

Site had natural habitat. There were a lot of trees and hills. There was a man-made "road" or "path" at the site. There were vehicles at the site. Some were moving and some were sitting to the side of the site. The vehicles that were not moving were sitting on hard man-made concrete or cement. People were at the site. There was a structure near the vehicles that were not moving.

Site also had low flying vehicles that were hot and firey and may be red in color. At one point I had the feeling there was "smoke" at the site.
