- E. SESSION SUMMARY:

The main aspect of the target consists of a rounded shape with something (going through/or coming out of) the middle of it (intersecting or interrupting the rounded shape). See sketches of variations of concept. Another shape seems to be an angle with a jagged end, see sketch, (this shape makes me think of a lightning bolt).

The target is located outdoors, with dripping water and green vegetation surrounding it. It is possibly an island. There is at least one person in the target area and animals (possibly an elephant). The rounded shape seems to be the most important part of the target. The dimensions are like a large balloon, however, it is as strong as a "ball of energy".
