- E. SESSION SUMMARY:

An x-ray picture of a human historical skull with lesions on top, shows evidence for scientific and medical finds. A series of these x-rays are filmed. Also, more women should be x-rayed as a preventative measure to future health problems. X-rays reveal much more than previously thought.

It will be pointed out again how little we actually own of U.S. interests by comparison to U.S. interests now owned by other countries such as Japan, Britain, etc... These figures will continue to decline, financially and otherwise, not in our favor.

Although the democrats will appear to have an edge in the primaries, George Bush will be re-elected to the office of the presidency.

The Soviet Union and outlying areas will continue to be at odds throughout the week. No permanent solution will be found to existing problems in this time frame.
