E. SESSION SUMMARY:

There was a long pointed object at the site. This object was rather big. People here were standing around looking at the object. Sometimes people would touch or hold the object. I felt that I was inside a room.

There may have been a large circular object that has a rotating motion at the site. Many people were with the object and it looked as though they were riding it. The object had a cover at the top but it did not fully cover the object.

The site was colorful.
