E. **SESSION SUMMARY:**

Site had a red big red square structure with many windows and doors. Structure seemed to be in a somewhat isolated area. People are here working. It seems to be an administration building. Some of the work being done here is important and this work is transmitted to several men sitting someplace else. The men sitting someplace else are doing investigating work. One man has dark hair. The men are middle-aged. They are working hard. It seems as though the men are working on the same case.

MEMO FOR: CH, ODT-S

SUBJECT: PROJECT 92-4-0(U)

1. (S/NF) The target appears to be a structure allied with the concepts of storage and manufacturing. The target building is located in an isolated area. Soil excavation and movement also appears associated with the target. Two sources associated the target with the odors and tastes normally associated with that of toxic materials.

2. (U) The isolation of the site implies a sense of illegality and secrecy.
