DATA SUMMARIES

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source.

- (S/NF/SG/LIMDIS) Source A:

SG1A -- [REDACTED] is located near a sandy beach area by the ocean. He wears a gold watch. His function is to hand goods over by transport and he is in control of these activities. He is associated with a white vessel that has a blue name on it beginning with the letter "B" and may be phonetically pronounced "Bitro". This man has been in the game for quite a while.

- (S/NF/SG/LIMDIS) Source B:

-- The target is a vessel which has been converted from one type or function to that of another. I sense that it was originally a non-cargo vessel which has been converted into a container ship or vice-versa. The name [REDACTED] is also associated with a geographic location or a famous clan name (these may be one in the same).

SG1A

-- I sense that there has recently been an addition of very large spools or coils reminiscent of a winch/loading system. They have been made to look like original equipment but the dark red color of the housing does not match the interior surface of the hull exposed above deck. The vessel has an "odd ball" appearance in that it is shorter and wider (or fatter) across the beam than usual. It's hold area is very wide..

-- The target is somehow associated with both the west coast of Africa and southeast Asia (maybe the Philippines or Indonesia). I sense it's contraband is not drug related but organic or biological. There are a number of long, whitish objects which are lashed to the sides of the hull within the hold area. There are maybe 20 or 24 along each side.

They are covered/hidden by a thick material reminiscent of heavy-duty canvas or rip-stop nylon which has had a thick coat of paint applied to the surface. The African connection feels very strong.

- (S/NF/SG/LIMDIS) Source C:

-- Target consists of a vessel or vessels that have known to have conducted drug operations in the past. The vessel operates quite successfully. There is an individual that can always be associated with the vessel. He may be the captain of the ship. The vessel may belong to one who is of an Eastern origin. Vessel is known to have off loaded drugs onto other bigger vessels. This vessel may be considered quite small. There is a Hawaiian feeling associated with the target.
