Project 94-261-0

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source.

- (S/NF/SG/LIMDIS) Source A:

SG1A

-- The target [REDACTED] is a not very tall man who is currently located at a land water interface location. He may be familiar with boating. This man is associated with cigarettes, cigarette packages or possibly some marijuana cigarettes. Heavier hard drugs may be involved. He is a dealer perhaps waiting for transport of drugs and could be intercepted in the process. This individual may have a record.

- (S/NF/SG/LIMDIS) Source B:

-- The target is a rather well-to-do merchant. He is originally from south central Asia; maybe extreme northern India/Himalayan region. However, he is now operating in a location east and south of his origin. I sense that it is a place with a heavy Muslim concentration reminiscent of Malaysia or Indonesia.

-- His business deals with shiny objects used for decorating houses or buildings; like cut glass or polished metal. These objects are not considered "fine art" but are pleasing to look at none the same. He deals with extremely large quantities of these objects. I sense that his main base of operation is either on, or very near, a major body of water. I sense a lot of people running around moving large bundles. It is very dusty and the air is "heavy".

-- There is a group of workers who are involved with special wrapping/packing; actually the concept of a "group within a group". They work separately from everyone else. The sense is that they are handling a material that is dark colored, thicker than tar, somewhat malleable and has a sweet, pungent smell. This material is in "blocks" about the size of 4 to 6 clinched fists.

-- The target is receiving this material from individuals who are somehow obscurely related; either through marriage or some complex cultural kinship system. These individuals are in a very mountainous yet dry (almost like the "steppes" of southern Russia) region.

- (S/NF/SG/LIMDIS) Source C:

-- Target consists of a medium sized vessel sailing in a westerly direction. Target also consists of air vehicles. Target consists of a mature powerful individual who may be involved in illegal activities. Some type of struggle is going on. Foreign activity is involved with site. I had an Eastern feeling. Even though vessel is involved, contraband may not necessarily be drug oriented.
