

~~SECRET~~

DATA SUMMARIES

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source.

- (S/NF/SG/LIMDIS) Source A:

-- The personality target is a middle aged man who is Middle Eastern or Soviet and wears glasses at times. He is intelligent with a keen mind. He possesses certain knowledge and really enjoys good food or cuisine. There are pictures and photographs associated with this individual. He is concerned about international issues and foreign diplomacy. The individual may have been associated with aircraft and weaponry technology at one time. During the week of 6-13 April he will be going places, eating, visiting, and meeting with people. This man and his activities concern money, science, or technology with political overtones. This is a CI matter. He may also watch a field game or a soccer game for enjoyment.

- (S/NF/SG/LIMDIS) Source B:

-- The target individual's intent is to alter the results of some sort of testing or experiment relating to the concept of high energy, physics and "black" things. The target has been looking at and studying a smaller version or model of the structure or object of interest.

-- The concept of an object consisting of black, angular metal was perceived several times during this operation. The target individual is within a hollow structure which sits on a rocky plateau, butte or mesa. It feels both long and tall at the same time. He appears to look outward from the structure from time to time. There are objects reminiscent of microwave dishes or radio telescopes within the vicinity.

-- The target is preoccupied with ring binder type notebooks which contain clear, plastic pages. He is moving between a table on which these notebooks are sitting and a large piece of equipment.

~~SECRET~~

-- There is a stream of smoke or steam which is reminiscent of the contrail of a jet, missile or rocket plume. This is associated with a large, fast moving object. A man is watching the sky; as if he is watching the clouds. Others are involved with an activity relating to mechanical work.

-- There are stairs associated with a rolling cylinder. The exterior of a circular object appears pitted and disintegrating reminiscent of crumbling sandstone. There is an area of darkness with cracks of light visible in several places.

-- An individual is concerned about "freeze drying" (?) and the contents of a round, hollow structure as well (attachments A-D relate to comments above).

-- A man is sick and the woman caring for him is required to make excuses for him.

- (S/NF/SG/LIMDIS) Source C:

-- The target is a male individual as stated in the tasking dated 5 April 1994. This individual is middle-aged, educated and somewhat formal. The individual could be Middle Eastern, Soviet or both. The individual was perceived as attending meetings at a high political level. Women were at the meetings with the individual. There could be an important function coming up where the individual will be. The individual has dark hair and dresses nicely. Politics play an important role to this individual and the activity he is involved in.

-- At one point, I could see an object that looked like a small rocket or missile that took off from the ground. This may or may not happen but could be of importance in the discussions the individual is meeting about.
