- E. INFORMATION:

Target individual will be meeting with a middle-aged, slightly over weight, dark haired oriental woman. This woman is slightly older than target individual and she is very important to this whole scenario.

There is an industrial plant involved in the scenario. This plant is a yellow, flat building.

Target individual will also meet with someone out in an open public place. This will be a short meeting and there will be a lot of people around. The place reminded me of either an airport or a shopping mall. In this meeting, it looked like a woman was involved also but a different woman than described above. This woman was very young and she had long light brown or blondish hair. She was an American. She had a male child with her. The target

individual will have a brief interlude at the top of stairs with this woman. It seems as though they will just pass each other up and he may drop something in her purse or put it in a baby bag.

The organization CIA phonetically surfaced.

The name "Amherst" phonetically surfaced.

Target individual has a sense of some type of belief or belief system or an alligence and uses this to justify what he is doing. Other individuals usually do this type of work for money however the target individual's motivation seems to be his own belief system of sorts even though he probably is making a lot of money.
