~~SECRET~~

DATA SUMMARIES

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source.

- (S/NF/SG/LIMDIS) Source A:

-- The color red, a deep or rustic red, is associated with the site. This is either the color of the car the beacon used or the predominant color from fallen leaves on the ground. The target site has hills and trees. It is like park land. The beacon, who has an active imagination, walked through the woods on paths. There were birds chirping. He may have thinking about himself as a boy or his son, because I envisioned a boy with a baseball hat on backwards. There is a dead tree log at the site.

-- There is a structure at this location which is architecturally designed similar to post barracks or a school. There is a long and high concrete staircase near this structure. After the beacon walked out of the woods and encountered a grass land clearing, he may have climbed these stairs upon his return (enclosure 3a).

- (S/NF/SG/LIMDIS) Source B:

-- The target consists of a large, flat area containing hundreds of large, rectangular-shaped boxes or containers (enclosure 3b). There are numerous rows of these; some of which occur slanted at an angle and parallel to one another. These objects are long, narrow, hollow, have a square-shaped cross section and contain echoing noises. These objects are "dirty" with numerous marks, scrapes and gouges inside and out. I sense that wooden floors predominate in most.

-- There are large, isolated lights which seem to illuminate large areas. These lights are very high up. There are long, parallel lines which converge in the distance (horizon?).

REPRODUCTION REQUIRES
APPROVAL OF ORIGINATOR
OR HIGHER DOD AUTHORITY

FURTHER DISSEMINATION
ONLY AS DIRECTED BY DIA/PAG
OR HIGHER DOD AUTHORITY

CLASSIFIED BY MULTIPLE SOURCES
DECLASSIFY ON OADR

-- Some of the objects have either a white rectangle or large white letters on the side(s).

-- Other concepts and/or objects associated with this target are:

- Round, wooden objects reminiscent of low posts.
- A long, thin spinning rod which is black and dirty.
- Numerous "hits" or perceptions involving **round... empty...spinning...hollow**; these attributes, in sum, are reminiscent of a circular air vent or blower fan.
- A "V"-shaped trough-like object.
- An enigmatic black object (enclosure 3c) which occurs within a larger object.
- Bent, curved metal.
- A chute-like object where something is taken in and then ejected under force (enclosure 3d).
- Long, metal bars joined together; reminiscent of bracing.
- Hot water or smoke/seam.
- The perception of movement past trees and a white church steeple.
- An old man on a cane with blue pants and black boots.
- White cloth reminiscent of a curtain or apron.
- Circular, spinning hollow object connected to a power source (enclosure 3d).

--The overall concept of this target is a concentration of objects reminiscent of semi-trailers, shipping containers, railroad cars or buses. The idea being a number of rectangular, squarish and hollow metal "boxes". There is the concept of wheels but I cannot ascertain if these are directly connected to these objects.

- (S/NF/SG/LIMDIS) Source C:

-- The beacon person drove to a rather isolated area. While the beacon was on the road, there was a rather large sign on the side of the road. This sign was black and white in color and it had a checkered or diamond design (enclosure 3e).

-- The target was a large square structure that stood on a small hill. This large structure was somewhat isolated. There was a setting in the background that looked natural except that it had beautiful colors like navy blue and yellow (enclosures 3f,g and h). I could not sense people here or much activity. I don't think the beacon person went inside the structure.

STAR GATE

* rows of similarly-shaped rectangular objects which are reminiscent of large metal boxes

(4)
(b)

Large, hollow,
smooth surface

white rectangle;
maybe large white
letters here

← Unidentified metal object

← V-shaped object

Block object; occurs
inside of a larger
object.

← spins, but how?

← wavy line appears to
come off of edge.

* interior corner; parallel horizontal lines.

opening; like a chute. something taken in and then ejected with force.

Circular, spinning; hollow objects connected to a power source.

Enclosure 3g

IMAGE MESSAGE TRANSMISSION

DATE: 931118

TIME: 0900-0930

DAY : Thursday

LOCATION: Elgin AFB Florida

WEATHER: 70 deg, 0 Wind, and Clear

CONDITIONS: Quiet out in the country

PHOTOGRAPH: Two were taken, Numbers 10 & 11

SUBJECT: Twenty acre open field with trees on all four sides.
There was a dirt road at the north end running East/West.
