(U) PREFACE:

(S/NF/SG/LIMDIS) The Special Activity Report is part of on-going taskings in response to a request from Joint Interagency Task Force West (JIATF-West) in Alameda, California. The data provided in this report will be used by the J22 division in their assessment effort regarding their counterdrug mission. The information provided in this report was generated by PAG-TA employing remote viewing (RV) methodologies.

SG1A
(S/NF/SG/LIMDIS) This project concentrated on the target personality [REDACTED]. The results were forwarded to JTF-5 by secure fax on 14 Nov 1994. The JTF-5 evaluation feedback is at Appendix B.

(S/NF/SG/LIMDIS) The methodology used in this activity is exploratory. Results should not be considered as stand-alone; but used or evaluated in conjunction with other proven data sources (HUMINT, SIGINT, IMAGERY, OPEN SOURCE, and/or MASINT). Generic data (e.g., general shapes) are more reliable than specific data (e.g. dimensions, names).

SPECIAL ACTIVITY REPORT
PROJECT NO. 95-282-0

(U) DATA SUMMARIES:

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source.

- (S/NF/SG/LIMDIS) Source A:
SG1A

-- The target [REDACTED] in appearance currently has longish hair and is on the thin side in frame or stature. This individual is a free marketer of items that are shipped or transported from one location to the other. He may have been divorced or has had difficulties resulting in an angry marriage. He may also have a daughter. This man is not to be trusted and has a bad temper. He is involved in illegal dealings and is currently located by water. His plans are to be on the move away from his home area and will be traveling in the near future.

- (S/NF/SG/LIMDIS) Source B:

-- The target is of average height and build (5'9"; 165 lbs). He is balding on top and occasionally wears a moustache. He is missing one or two of his front teeth but has an infectious smile just the same. He wears almost exclusively an open collar shirt and expensive sports jackets; mostly blues and sometimes a double breasted jacket as well. For somebody who is involved with illegal activities, the target enjoys having his photograph taken. He is married to a strictly religious wife but enjoys putting forth the image of a "playboy" lifestyle.

-- I sense that he has spent a lot of his life in western Europe; maybe the UK. He has been to college and can speak English and two other European languages (French and Italian or Spanish I feel). I'm sensing that he also used to be "not so nice" as far as his involvement with crime is concerned. I sense a real mean or diabolical demeanor; as if he once held a position of an enforcer or body guard.

-- I don't sense an association with white but rather with dark colors e.g. browns and greens. His interest involves dense, dark colored lumps which would be considered in a "raw" state. This stuff has a very heavy and almost moldy smell. It really almost has the appearance of dried animal dung because of its color, size and shape, "dryness" and the amount of stick or straw-like material which seems to be stuck to it. I sense that this stuff is stored at least part of the time in the latter.

-- I sense that this substance moves at first very slowly and then rapidly as if it were first transported by a group of pack animals and then transferred to a large motor vehicle. I sense that the target has a great deal to do with the operation of this transportation. The target has suspicions that his operation is being watched. Consequently, the route used by the locals is changed with every shipment.

-- The target has something to do with weavings or fabric; not carpets but maybe clothing, wall hangings or packing material.

- (S/NF/SG/LIMDIS) Source C:

-- The target personality is Middle Eastern or Eastern in origin. He considers himself spiritual or religious or adheres to a strict religious discipline. This individual has had many transitions in life and can be considered successful. He has money and wealth. He has been wanted for some time for illegal activities and he could have been responsible for organizing some terrorist activities. He is older now, and at times he is tired. He uses a large organization to back him in his illegal activities. It seems as though he does not have a difficult time to get what he wants or needs. He is very well known in his circles and some come to him for advice. He is active now in illegal activities but more in the role of consultant or advisor. Drugs and weapons seem to surround this individual. He reminds one of a zealot.
