SG1J

Mr. Berbrich: This confirms an earlier discussion I had with [redacted]. A source in OSD/LL indicates that Dr. Anita Jones is very much opposed to the star gate program, and is seeking information on which Senators are involved in supporting the program - in order to assess the prospects for killing it. I provided only sketchy information about the various players, but we are in a situation where we have to be at least somewhat cooperative. I did pass along that I felt there was significant and strong support from some major Senators, and that I felt it would be difficult to change their minds about the program. I also indicated that this is not a large program - either in dollars or in personnel - for DIA.

I don't know if there is anything we should do from an LL perspective at this point, but I thought you needed to know the lay of the land - and that perhaps you might want to talk to any contacts you might have within DDR&E to get a better gauge on why the program is suddenly of such interest at this high level. SG1J

I will keep [redacted] informed of any developments on this end - and we can talk tomorrow at KC meeting if you like.

V/R [redacted]
