1. In response to reference (a), the Naval Research Advisory Committee (NRAC) is not able to provide a representative to serve on your Scientific Evaluation Panel.

2. As explained during reference (b), the NRAC is limited by law to 15 members. NRAC studies are assigned annually by the Assistant Secretary of the Navy (Research, Development and Acquisition), and they take maximum advantage of our limited Committee resources. In addition, the only Committee member with a physical sciences background was appointed in May 1994; consequently, he has had very limited Committee experience.

3. The decision not to provide an NRAC representative to participate on this DIA panel has been coordinated with the NRAC Chair, Dr. James E. Colvard, and the NRAC Executive Director, Rear Admiral Marc Pelaez, USN. Please feel free to contact me at (703) 696-6769 if I can answer any questions.
