(U) PREFACE:

(S/NF/SG/LIMDIS) The Special Activity Report is the ninth in a series of reports which provides data in response to a request from Joint Task Force Five (JTF-5) in Alameda, California. The data provided in this report will be used by the J22 division in their assessment effort regarding their counterdrug mission. The information provided in this report was generated by PAG-TA employing remote viewing (RV) methodologies.

SG1A (S/NF/SG/LIMDIS) The data provided in this report is the ninth in a series of taskings. This project concentrated on the target [REDACTED]. The results were forwarded to JTF-5 by secure fax on 2 May 1994. To date evaluation feedback from JTF-5 has not been received.

(S/NF/SG/LIMDIS) The methodology used in this activity is exploratory. Results should not be considered as stand-alone; but used or evaluated in conjunction with other proven data sources (HUMINT, SIGINT, IMAGERY, OPEN SOURCE, and/or MASINT). Generic data (e.g., general shapes) are more reliable than specific data (e.g. dimensions, names).

(U) DATA SUMMARIES:

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source.

- (S/NF/SG/LIMDIS) Source A:

SG1A
-- The target [REDACTED] is associated with a red soiled rocky geographical location. This area in terms of climate can be very hot. A young man is associated with this tasking who has dirty blond or light brown straight short hair, light eyes, and may wear gold framed glasses. Planes fly over this location. There is a facility in the area or concrete structure which has to do with electronics. Some type of radio or electrical tower is in the vicinity. Weather conditions, some type of sky activity, or signals are received near this location.

SG1A
-- The target [REDACTED] is associated with a place where people meet near high ground and is California related. Contraband or drugs are shipped/dropped in relation to this location. A male individual is involved in the exchange for profit and is a good source. A ring operated from here and is expanding in the way of people. The name "Sam" may be relevant. This group has gotten away with a fast track activity in the past. There is some travel by land near the coast where contraband is sometimes received. There may be some activity next month that is not coming inland, but traveling outward from the land or harbor. A connection with vessels, shipping merchants, freights, or freighters may be made.

-- By June, something, possibility a vessel, will be sent out across water in a southern direction for return of illegal cargo to the United States. This activity will be finalized in the June time frame.
