Site consists of many objects
One object is circular with a ring
around it & could be slightly moving.
One object was very flat and slanted
AND had "grooves" in it.

I felt that I was outside and
people were attending an event

Sometimes it seemed dark at the
site. Some colors associated with
the site could be dark. Blue & green
were associated with the site.

Water may be ~~at~~ at the site.

Small structures could surround
the site & there may be a
large structure at the site.
