E. SESSION SUMMARY

The color red, a deep or rustic red, is associated with the site. This is either the color of the car the beacon used or the predominant color from fallen leaves on the ground. The target site has hills and trees. It is like park land. The beacon, who has an active imagination, walked through the woods on paths. There were birds chirping. He may have been thinking about himself as a boy or his son, because I envisioned a boy with a baseball hat on backwards. There is a dead tree log at the site.

There is a structure at this location which is architecturally designed similar to post barracks or a school. There is a long and high concrete staircase near this structure. After the beacon walked out of the woods and encountered a grass land clearing, he may have climbed these stairs upon his return.
