Memorandum for Record

Subject: Operational Summary - Task 91-2 (U)

1. (S/NF/SG) Task 91-2 is Operational Project 91008.
2. (S/NF/SG) The following is perceived as a composite result of five STAR GATE remote viewing sessions conducted by as many remote viewers during the period of 2 July 1991 to 8 July 1991 inclusively:
 - The target personality is a middle-aged appearing political leader geographically located in a Middle Eastern/Indian-type country/environment. He is a dark complected individual with a distinctive white/grey beard. He is currently involved in political oratory designed to explain/justify a political position of moderate interest to US diplomacy. The personality's country is located in the near vicinity of an extensive body of water that is characteristically stagnant/brackish.
 - There is an inference to the presence of a younger female, possibly the spouse of the target personality.
 - There is also an indication of some form of energy (growth/power) associated with a structure that is of (secondary?) interest to the customer.

SG1J

COMMENTS: The need to label the personality as a "Hussein of Jordan-type-personality" was particularly distracting.
