DIA LOGISTICS/SUPPORT PLAN

CONTRACT TITLE: Research and Analysis
CONTRACT SPONSOR: [REDACTED]
ELEMENT: DT-5A SG1A
PHONE: [REDACTED]

- A. EQUIPMENT MAINTENANCE (RTS-6) Not Required
 - 1. Internal Maintenance
 - 2. Contractor Maintenance

- B. SUPPLY SUPPORT (RTS-6) Not Required
 - 1. Consumables
 - 2. Equipment Storage

- C. EQUIPMENT TRANSPORTATION HANDLING (RTS-6) Not Required

- D. FACILITIES (RTS-1) Not Required
 - 1. Utilities
 - 2. Space, location
 - 3. Health, Environmental & Safety implications

- E. PERSONNEL AND TRAINING (RHR) Not Required
 - 1. Civilian & military personnel requirements
 - 2. Required Training
 - 3. Personnel relocations

- F. INFORMATION AND GRAPHICS (RSO) Not Required
 - 1. Systems concept
 - 2. Software requirements
 - 3. Hardware requirements
 - 4. Required funding

- G. PUBLICATIONS AND GRAPHICS (RTS-5) Not Required

- H. COMMUNICATIONS (RCM) Not Required

- I. SECURITY SERVICES (DSC) REQUIRED
 - 1. Security clearances
 - 2. Physical security
 - 3. Contractor security
 - 4. TEMPEST - DIA/DSC-2 will review and evaluate all requests to process classified information electronically and will provide guidance on equipment procurement, installation, relocation and other measures relative to the control of compromising emanations.

ADVANCED ACQUISITION PLAN (AAP) SUMMARY

AAP NO./PURCHASE REQUEST NO. 330/0012Z/91

PROJECT TITLE: Phenomenological Research and Analysis (U)

1. (U) BACKGROUND:

a. (U) Phenomenological research and analysis as intended by this contract refers to anomalous phenomena associated with human activities. Investigations in this area have sometimes been referred to as Remote Viewing (RV), Extrasensory Perception (ESP), and recently as Anomalous Cognition (AC) or Anomalous Phenomena (AP) research. Foreign researchers have also used the term, psychoenergetics, to describe aspects of this area.

b. (S) In 1985, the Department of Army' Surgeon General Office for Research and Development (DASGRD) initiated a 5-year phenomenological research and development program. Research identified for this effort centered on two aspects; basic phenomena understanding and applications oriented research. This SGRD program was in response to recommendations that followed from DIA's earlier 3-year evaluation effort that examined the validity and threat potential of an aspect of this phenomena known as remote viewing. DIA established close ties with this SGRD research program to insure that applications research would be adequately pursued.

c. (S/NF) In 1987, it became apparent that SGRD funding might not be available to carry the project through to the end of the 5-year period. Consequently, additional funding was sought by DIA and acquired through funding transfer action by the House Appropriations Committee (HAC). This funding was provided to DIA; MIPR action to the SGRD contract was the most expeditious method of allocating these funds.

d. (S/NF) Results of the DIA/SGRD effort yielded several findings of breakthrough potential. Subsequently, follow-on research support was provided to DIA by Congressional action for FY91. DIA was identified as the executive agent due to long-standing knowledge and expertise in this area. Both R&D and D&M funds were allocated for continuing basic and applied research, for applied investigations, and for assisting in assessment of relevant foreign research.

2. (S/NF) DESCRIPTION (Expected Capability): This effort will permit both research and analysis of anomalous phenomena to continue. Tasks defined in the classified statement of work focus on those activities that have the highest potential payoff in phenomena understanding, in application analysis, and in threat assessment support. Progress in this area will assist DIA and the Intelligence Community in performing adequate threat assessments and for possible pursuit of applications involving this phenomenological area.

3. (U) MISSION REQUIREMENT SUPPORTED:

a. (U) Source of Mission (DCI goal, Defense guidance, JCS, Other): DCI Goal #2; DIP FY87-91 Required Capabilities ii. 1n, 1q, 2a, 2e, 2g, 2j, 2n; DoD Plan for Intelligence Support to Operational Commanders FY87-91 Required Capabilities 20, 21, 23. NIT #9 & 32.

b. (U) Impact of Disapproval: Failure to fund this effort would seriously degrade DIA's ability to assess military potential of the emerging foreign efforts in this field and would eliminate potential for phenomena understanding and application development.

4. (U) CONTEXT:

a. (U) Relationship to Ongoing or Proposed Projects: There are no known similar current or proposed projects.

b. (U) Managerial Perspective (DIA goal or objective supported):

(1) (U) Responsive to PMGM 1984-1988 General Production Guidance II.B.2.a.

(2) (S/NF) A prior effort (1981-1983) concerning anomalous phenomena research was conducted through a DIA external contract. The main purposes of this effort was to evaluate the threat that foreign achievements in this area could pose to US national security and to explore its potential for use in US intelligence collection and military operational problems. The results of this effort have confirmed the reality of the remote viewing phenomenon and the existence of a potential threat to US national security. Assessments of foreign research in psychoenergetics were also included in the early effort.

c. (U) Accordance with Agency ADP Planning, if applicable: N/A.

d. (U) Government Furnished Space: None.
