SUMMARY OF INFORMATION

① The main color of the site was purple. Other colors associated with the site are yellow and red.

② The site consisted of nature. I could see trees or gardens or nature paths. There was a white structure associated with the site. The structure sat behind the path or garden/gardens. It was warm and breezy at the site and sometimes people sit here just for enjoyment.

③ Inside the structure, I could see gadgets and the main purpose of the structure was that of science or machinery.

*Structure reminded me of
the White House.*
