SUMMARY

There is a structure-like building, but it isn't a building. It appears to be a support of some sort and it is on a platform bobbing in water. There is a lot of water and is rough. There appears to be a lot a activity going on. There is energy or something being pushed upward. The pipes are in the water - interconnecting pipes. A form of energy, rough waters. I want to say a color for the name. The location on the map would be in the North Sea. It is most like an oil platform. The name sounds like a color, black, green, raven.
