

TASKING

1. PROJECT: 8807 (2nd session)
2. VIEWER: 095
3. BACKGROUND: Your first session correctly accessed a "low, long structure(s) with a slightly smooth/curved angles between sides and ground, on flat, open, empty ground".
You tried to access people, but got furniture, instead. This is consistent with the perceptions of other viewers. You heard "a constant machine droning sound and some intermittent loud noises".
4. INSTRUCTIONS: If necessary, review your first session's notes. Reaccess the tasked site and provide as many of the following EEI as possible:
 - a. Describe the site's interior. Provide sketches.
 - b. Locate personnel related to the site. Move to any time when they are relating to the site and describe their activities.
