3. (S/NF/SK) Tasking: Determine if a targeted event (K-13) will take place in South Korea in December, 1988. If so, describe the event and provide sketches.

4. (S/NF/SK) Results:

a. The beginning of the session located a gestalt of motion, then structures which at first appeared to be beside water. However, later impressions were that these structures were very tall, very modernistic, and very ornate.

b. Through the latter part of the session, focus was on a person who was apparently an oriental businessman. This man was first seen getting out of a very large car, with something passing between him and a young man standing on the sidewalk, dressed in a dark T-shirt and jeans (rolled up sleeves on T-shirt, "duck-butt" hair, etc.). From then on, the businessman was seen in the large buildings, offices, on the phone, etc. Every impression of the businessman showed him in a white or cream- (light-)colored suit (like a panama suit).

c. Other than the passing of an item between the young man and the businessman, no event was detected.
