WASHINGTON, D.C. 20301-6111

520,00/DT-S89

9 March 1989

MEMORANDUM FOR THE ASSISTANT DEPUTY DIRECTOR FOR SCIENTIFIC AND  
TECHNICAL INTELLIGENCE

SUBJECT: SUN STREAK Operational Report - 8908 (U)

1. (S/NF/SK) Eleven remote viewing sessions were conducted during the period of 2 March 1989 to 6 March inclusively in an effort to determine the scope and nature of an event identified as "4 April 1987 - 1830 hours."

2. (S/NF/SK) There is strong correlation among the remote viewers that the issue of interest surrounding the target expressed as "4 April 1987 - 1830 hours" is a meeting of several personalities from different nations in a city with a European flavor. The meeting is conducted under the "unofficial" sanction and aegis of highly-placed civilians and implemented by military or military-related executives. The purpose of the meeting was to plan, implement and monitor an activity that proved to be financially and politically successful to the proponents of the meeting. The element of "plausibility for denial" was incorporated in this scenario to preclude the possibility of compromise.

3. (S/NF/SK) Further refinements related to the target are highly varied and represented in the following summaries:

a. (S/NF/SK) Remote Viewer 003 indicated that several people of various nationalities met to conduct a secret meeting to plan implement and monitor activities of mutual interest. There appeared a "sense of contentment as to the results achieved thus far." The US was not involved "as an actor....but as one acted upon." Results of the activity were not beneficial to the interests of the US. The final culmination of the meetings resulted in the "transfer of a "large volume of some thing", a sort of bulk transfer of highly desirable material from one place to an other.

b. (S/NF/SK) Viewer 095 perceived a hotel or office-type structure with an old European flavor. 095 perceived some form of government sponsorship taking place in a "non-government" building. A middle-aged dark haired man appeared to be of interest.

c. (S/NF/SK) According to Viewer 025, a sense of "registration/registered" was associated with the target building that was located in a city area with buildings and water nearby. Several people of different nationalities met on 4 April 1987 at 1830 hours to plan, monitor, and possibly prevent the occurrence of an incidence "such as Chernobyl." Cyprus as a country plays a monitoring role. An area in the Middle East appears to be of primary concern. The issue of Chemical, Biological, Radiological - CBR warfare appeared important in this case.

SG1B

d. (S/NF/SK) Viewer 079 perceived the target date and time to refer to an unofficially sanctioned, clandestine-type meeting, convened to plan and conspire against "small, third-world" countries. The meeting took place with the approval of "high ranking civilians" for implementation "by military managers." The results of the proposed activity was highly successful and reaped political and financial benefits for the proponents of the meeting. The following names surfaced phonetically as being associated with the activity: "Swatcho-Duncan-Alle Andrea-Smoll."

e. (S/NF/SK) Viewer 011 described the meeting as one having taken place in secrecy between two parties (countries) of opposing ideologies. Representatives perceived as high ranking officials, agreed to operate in a clandestine manner within one another's territory regarding an issue of mutual interest and concern.

4. (S/NF/SK) OPERATIONAL COMMENTS: There appears to be common agreement among the viewers on the nature of the activity, readily and generally described as an unofficial, behind-the-scenes meeting. Replies as to the specific agreements reached by the participants varied widely according to each individual viewer.
