SUMMARY OF INFORMATION

① The area consists of ^{mountains} mountains, peaks, valleys, and waterways. The important aspect of this area is the waterways. This area is an insurgency like atmosphere.

There is a surge of activity around the waterways and drugs may be put on boats here.

What appears to be a radical situation now will transform into a peaceful situation. There will be a smoothing out period.

The U.S. should be in a position to monitor the situation through radar and transatlantic communications. The U.S. should take a "wait and see" or "watch and see" attitude because if the U.S. were to take positive actions now, it may not work out.

The name "Sousa" phonetically surfaced as being related to this issue.

① apparently implied is that one must travel "towards and through" mountains, peaks and valleys to reach the waterways (target area?)
