## STATISTICAL EVALUATION

**TOTAL CASES:** 59

Search only cases: 1

Detail only cases: 31

Search and detail cases: 27

### CASE BREAKDOWN:

**39 UNABLE TO CORRELATE:** Defined as a case in which JTF4 could not task assets to respond to information in the report provided.

**6 NEGATIVE; NO CORRELATION:** Defined as a case in which JTF4 (or other) assets were tasked as a direct result of the report provided, and the information provided was proven to be incorrect.

**9 SOME CORRELATION:** Defined as a case in which there was at least one data element provided in the report that correlated to known true information which was received by JTF4 after the case report was completed. This does not include correct responses on known operational data.

**5 STRONG CORRELATION:** Defined as a case in which there are several data elements in the report which correlate to known true information received by JTF4 after the report was completed.

**NOTE:** The correlations were all on details provided in the case; no correlations in cases in which primary objective was to locate a vessel.

Of cases in which a correlation was possible due to JTF4 asset tasking or reported information received after the case report was completed (34% of cases, 20):

30% had no correlation to known data.

45% had some correlation.

25% had strong correlation to known data.
