SUMMARY OF INFORMATION:

TASKING: "Describe any important events which will occur during the next 1-3 days concerning the Iraq/Kuwait situation."

NOTE: This session was performed by tasking myself before sleep, and recording impressions gained during the night.

1. A large airplane was seen crash-landing in a small (approximately lake sized) body of water in mountainous country.

2. There were approximately 12-20 people on board.

a. Two of them were hurt and still in the plane when it finally sank into the water.

b. Most were rescued by a man in a rowboat who ferried back and forth between the plane and the shore. On the first trip, several people were hanging from the side of the rowboat, rather than sinking it with too much weight. A couple more trips were made.

c. Two were "rescued" by an official boat, even though they had been warned by the man in the rowboat that it would be better to hide in the sinking plane rather than to go with the officials. He warned them that they would disappear and never be seen again if they did. However, in desperation, they allowed themselves to be rescued by the official boat.
