SUMMARY OF INFORMATION

More recruits are required to go to the Middle East. A large, off-white, concrete structure in the United States with columns and a clock in the center of it will be targeted for a terrorism bomb attack. This is an open air (no ceiling) building which is similar to a stadium. This arena includes night time activities. Night lights shine down from above. There is an old, hand made stone wall in the vicinity. Small black radio devices and micro chips are used in the process. Televised announcements are going on during this time.
