1. (S/NF/SK) Tasking: Monitor granted access to all available feedback/targeting information (see ops officer files).

2. (S/NF/SK) Session: This source is currently undergoing concurrent S5/S6 training. After source described a complex structure, and moved through S3, he was provided with a site diagram (which he immediately recognized as one that he had prepared himself). Monitor inquired whether or not source knew what the target was. Source replied in the negative. Source was then directed to turn his attention to Area #9 (this was a "control" to get a feel for how the source would do on this particular site, Area #9 being a relatively easy target to describe). No other areas were worked this session; monitor has observed that sources have not easily "switched" from one area to the next without something going wrong. Monitor quite pleased with source's work.

3. (S/NF/SK) Summary: Area #9 is an (AOL-"auditorium"). It also has a university atmosphere to it.

4. (S/NF/SK) Feedback: Source was informed that the target is probably what he described it as being.
