PROJECT NUMBER: N-1	SESSION NUMBER: 1
DATE OF SESSION: 15 SEPT 87	TARGET COUNTRY:
REFERENCE:	MISSION STATUS:
TECHNIQUE UTILIZED: CRV	SOURCE IDENTIFIER: 018

-----

1. (S/NF/SK) Monitor Tasking: Monitor intent was, in order: to get the Source to the proper location (building), identify the document's possessor, and then to obtain a cursory description of the document and its substance. (Future sessions would be devoted to more detailed perceptions).
2. (S/NF/SK) Source Tasking: The source was initially provided with the target coordinates only. After perceiving what the monitor felt was the target building, the Source was instructed to perceive a "target person" who works within the building. This done (to the monitor's satisfaction) the Source was directed to describe a "document" in the possession of this person.
3. (S/NF/SK) Summary: Source's summary attached. Much of the data relating to the document's substance should be considered fraught with AOL.
4. (S/NF/SK) Comments: It is particularly interesting that the Source recognized the person as being "familiar". Monitor plans to have the Source reacquire the document and begin perceptions of it anew.

## memorandum

DATE: 11 September, 1987

REPLY TO  
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY, PROJECT N-1 (C-SS)

TO: DT-S (ATTN: [REDACTED]) SG1J

## 1. (S-SS) Statistics:

Project #:	N-1
Viewer:	018
Session date:	15 SEP 87
Filename:	87N1.L01

2. (S-SS) The outside of the site appeared at first as a large, oppressive, seemingly walled-in building. It reminded me (AOL) of a prison or a compound of some sort. The inside was very impressive and pretty. It reminded me (AOL) of an art gallery. There were people inside this structure who seemed to be well dressed and just milling about, as though (AOL) at a social gathering.

3. (S-SS) Having been cued to look for a single person, I detected a man whom I have the strong feeling that I have known personally. Asked to perceive the time of intersection between my path and his, I perceived two points, one past and one future (see sketch, p. 14)

4. (S-SS) Having the further cueing that I should describe the contents of a document which this person had, I got the following perceptions:

a. The person in question has a feeling of dread and fear about the contents of the document, and would like to prevent the results of the document.

b. The impression that the document addresses methods and concepts to bring something about (from concept into reality).

c. The "something" being brought about seems to require restricted areas.

d. There was a repeated impression of germ or biological warfare.

5. There was a final impression of another man firing a missile, again with the strong impression of biological warfare. This man seemed to be dressed in khaki clothing, and was chuckling evilly, as though he had just gotten away with something he knew he wasn't supposed to do.
