54 1/2 Sedentary, not combative. could defend selves but primary interest not in conflict. Culturally advanced in relation to those surrounding. would be considered likeable as a "population personality".

54 1/2 not preoccupied with fabricated religious artifice - was present but primarily symbolic. Religious reverence accorded non-physically present entity/entities to which people felt kinship as if directly related but not present in direct contact. Elated, excitement, transcendence, expanded awareness involved in religious communion. Perceived deeper passage into "spiritual realm".

S4/2 arrives partially - "like" helicopters or
smaller. Easier to cross distances. Ground
transportation with them. Thin - good condition
not fat; wear clothes. A lot of scavenging,
clambering around while looking at things.

Idea early on about valley - used to be water there but
now there isn't.
