E. SESSION SUMMARY:

The bombing at the New York Trade Center was well planned out and highly organized. There are three individuals directly connected with this incident. One is a female who has long black hair and this person has been in jail previously. This long black hair may be a wig when she may in fact have short blonde hair.

The people responsible for the bombing are currently in the United States.

It will take the FBI several months of investigation before they come up with all the facts. I feel that the people responsible for the bombing will be caught before the FBI is totally complete with its investigation.

These people will be caught because of informants.

The letter Y is in one of the individual's name.

The word "echo" phonetically surfaced.
