- E. SESSION SUMMARY:

This site consisted on either one large structure with many dimensions or many structures. At first, I noticed a rounded or circular structure that had a gold appearance. To this structure's left there were several small square structures and one large, tall structure. To the other side of the rounded structure, there was a tall, square structure that seemed to have been white in color.

If one were to look up from where this structure or structures are, one would see high hills and green trees.

Although the site seemed rather isolated, it seems that people do go to one portion of the site to work. I had a feeling that the site represented some type of organization.

Water is at the site.

Blue and gold or yellow is at the site.
