Feedback on JT4-074-90 (23 JUL 90)

SG1A

OOG: 231100L Jul

The [REDACTED] is currently located at 21 N - 71 W, under the Caicos Islands. The vessel is interested in cold water fishing. There are two vessels associated with each other. The second is moving within the vicinity of the Windward Passage between Cuba and Haiti. However, there are no drugs aboard either vessel and a transfer of drugs will not occur. The destination of the [REDACTED] will be at several lower islands in the Bahamas 23 N - 75 W.

SG1A

SG1A

00B: 231034 JUL 90

The [REDACTED] was detected at approximate coordinates 2345N/8845W, in open water. It does not appear to be presently carrying drugs, but is waiting to pick up drugs from an unidentified source. Once it picks up the drugs, it plans to head for an area north of Miami (possibly Ft. Lauderdale). There are indications that this path of entry for drugs into the U.S. is new, and just getting established.

SG1A

OOD: 231440L July 90

The vessel [REDACTED] is currently located at 22 25'N 70 45'W. It is traveling in a northwest direction to an island in the Bahamas. The probable destination is 24 15'N 72 15'W. It is presently carrying drugs. They are located in a rectangular, metal container that is very cold, possibly a freezer, located toward the rear of the vessel.
