SECTION F
DESCRIPTION/SPECIFICATION

TITLE: Special Training Techniques

F.1. (S-ORCON) Background.

The Department of Defense has shown considerable interest in applied parapsychology, or psychoenergetic processes, over the past few years. Based upon Air Force and Army involvement, a meeting was held in August 1978 to establish a unified DoD effort in the development of the remote viewing process for intelligence purposes.

The DoD program will investigate the remote viewing phenomenon and the extraordinary collection potential it offers. The Soviet Union has a significant commitment in this area and it is therefore incumbent upon the DoD to understand the phenomenon and pursue its military applications.

F.2. (S-ORCON) Objectives. The objectives of this effort are the optimization of remote viewing protocols, the familiarization of selected individuals to reach enhanced levels of ability and the establishment of potential screening procedures to enlarge the population from which individuals are selected. ✓

F.3. (S-ORCON) Services to be Performed. The contractor shall provide necessary facilities and personnel to perform the following in accordance with approved protocol provided by the government.

F.3.1. Task 1: a. Using contractor personnel, conduct remote viewing sessions at Ft. Ord, CA, on notification by government of the schedule of exercises at Ft. Ord.

b. Make available to personnel designated by the Project Manager relevant data, protocols and specific procedures of the remote viewing process.

c. Provide personnel designated by the Project Manager with the guidance necessary to establish remote viewing programs at different locations.

* d. From a group of 10-15 government individuals, select six individuals for participation in a remote viewing familiarization program.

* e. Conduct a remote viewing familiarization program of one month duration for each individual.

(This clause is applicable if the award, an order under an existing contract or a supplemental agreement for new work is in excess of \$5 million, or the expected cumulative value of orders (when the contract is of the indefinite delivery type) is in excess of \$5 million.)

GUIDANCE ON DOCUMENTATION OF DATA REQUIREMENTS (continued)

NOTE A: Block 13 is used for further explanation.

NOTE B: When data is of recurring type, it will be submitted at end of reporting period established in field unless otherwise indicated in Data Preparation Instructions or in Blocks 12 or 13 of DD Form 1423.

Block 11, As of Date (AOD). When data is submitted only once, this block indicates the number of days the data is to be submitted prior to the end of the reporting period; e.g., "15" would place the AOD for this report at 15 days before the end of each month, quarter, or year depending on the frequency established in Block 10; "0" places the AOD at the end of each month, quarter, or year. Further guidance is shown in Block 13 or 16 as required.

Block 12, Date of First Submission. This block indicates the initial data submission date (Year/Month/Day). When data has already been submitted and will be resubmitted, the date of the next submission is entered. When the contract start date has not been established, this block indicates the number of days after the contract start date that the data is due; e.g., 30 DAC. Further information if required is contained in Block 13. Classified dates are not cited on this form. "DFDEL" indicates deferred delivery.

Block 13, Date of Subsequent Submission/Event Identification. When data is submitted more than once, the date(s) of subsequent submission(s) is indicated in this block. When submission of data is based on the initiation of a specific event or milestone, this information is cited in this block (when such information classifies the form, this block is left blank). Example: "NLT 15 days before start of production"; "45 days before first article", etc.

Block 14, Distribution and Addressees. Addressees and number of copies (regular/reproducible) to be forwarded to each addressee is cited in this block; e.g., DDC-20/0. Addressees are indicated by office symbols (i.e., DRDAR-XYZ), contractor initials, DoD Handbook H-4 codes, and Command initials. A list explaining these symbols, etc., is attached to the form. When reproducible copies are required (second number), the type of copies required will be cited in this block or Block 16.

NOTE: Unless otherwise cited in Block 10, entries in Blocks 3 through 9 on DD Forms 1664, Data Item Descriptions, are for informational purposes only and are not contractually binding.
